

Building a Brighter Tomorrow

Dear Nekesa (Harvester),

We are thrilled to share the exciting news that two of our boys, who joined the home in 2005, have successfully graduated from university in 2023.

Evans Oketch graduated with a diploma in Telecommunication engineering. We are so blessed to have had Evans with us for many years. We know that he is a young man that loves technology and learning. It is because of you that Evans will go on to have an even brighter tomorrow.

Nelson Wafula graduated with a degree in statistics and economics. Nelson has been with us since he was a young boy. We have had the privilege to see him grow in stature, knowledge, and a mind for numbers. He is a bright young man. It is because of you that Nelson will go on to have an even brighter tomorrow.

Moses Baraka has completed high school, marking another significant achievement in our shared journey. Many of you may remember the story of Moses. He came to us when he was around 2 years old. He was found in a field by a worker. The boy was beaten with scars and open wounds all over his body, he was malnourished, and abandoned in a field to die. Moses went from being nearly dead just 16 years earlier to now healthy, smart, and vibrant young man! It is because of you that Moses will go on to have an even brighter tomorrow.

Witnessing their journey from childhood to higher education has been a source of immense joy and fulfillment for Margaret and I. We want to say Thank you for partnering with Bungoma Bible Ministries! This is the fruit of your giving!

Evan Oketch- Graduated with a degree in Telecommunication Engineering

Nelson Wafula - Graduated with a degree in Statistics and Economics.

Moses Baraka- Graduated High School

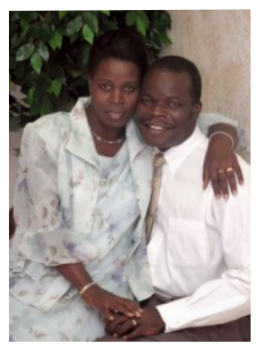

Looking ahead, we have four more boys set to embark on their high school journey next year. Your support continues to pave the way for their bright futures, giving them the opportunity to pursue education and break the cycle of poverty.

Currently we have 9 boys continuing in High School and this year we will be adding 4 new boys. This will be 13 young men attending High School. In Kenya, the High School program is not National. It is optional. Most children do not get the option to attend unless their parents are financial well off to support their education along with room and board. High School requires they go live at the school for the 4 years of their education and only come home on holidays, summer breaks, and special family occasions.

The Children's Home has as many boys as allowed. Most are choosing a prosperous future. We are so blessed to be part of that future, and so very happy to work along side of them. Your support is vital to continue this march toward Kenya becoming a blessed nation.

The impact of your support extends far beyond the walls of the Bungoma Bible Children's Home. It ripples through the lives of these boys, shaping them into individuals equipped to face the challenges of the world with resilience and determination. Your contributions are instrumental in

creating a brighter tomorrow for each and every one of them, the future families, and the future of every life they touch.

Forever Grateful,
Justus Ochuro

4 new boys to attend High School
